

COOKING SHOW

CHALLENGE:

You will create a cooking show segment to share with the class. You may work in pairs or on your own. During your show you must make one seasonal dish that your whole family can share. Remember to make it as entertaining as possible-channel your inner Nigella!

SUCCESS CRITERIA:

Your video must be no longer than 5mins. This means you might have to edit some of the cooking and preparation time once you have done your filming.

You will need to introduce yourself and clearly explain what you are making, each ingredient and each step you take to create your dish.

At least one of your ingredients must be in season. You might even find this ingredient in your garden at home.

Your show will need a title and subtitles to explain what you are doing. You could add some music to add interest to your video.

Remember to always have an adult present when you are using sharp knives and/or the stove. Parents or siblings are welcome to help with the meal!
